## Welcome to this website and adventure!

This Saga series is about the future, that hidden future which we have no idea about, at least not yet. An adventure, 'Science Fiction', and Fantasy too for sure, and it all starts the 20th August 2041.

This is an ongoing Saga with the following 'Adventure 2042' on its way, and most likely will continue years after that. Well whatever, who knows about the future, even about writing this Saga, from where we stand today?

This Saga (originally written in Swedish) is additionally recorded in English, which means that you can listen to each part by clicking the audio bar arrow below, and you have the option to read the audio text by clicking the PDF-button, too.

So, welcome once again. … and if you are new to this site and adventure, you start off by clicking the first Saga Spine 'Under the Surface 2041' in the left panel, and you will be guided from there.

As the saga continues, this site will 'Accordingly' be updated. You find the latest news by clicking the 'News' button below, and if a 'Next Page Arrow' shows up in the bottom right corner, it indicates that there are more information, or illustrations, to view for that page or part of the Saga.
